1.  
I was thinking  
While out walking  
What we've done to this earth is a whole lotta wrong

Forest depletion  
Animal desecration  
No wonder oceans are burning down

Every inch upon this earth  
has been crying out the alarm  
We've never ever tried hard enough  
To stop us from causing harm

woah, is anybody thinking about this other than me

2.  
That got me thinking  
And self-reflecting  
Over consumption is a mighty wrong

Every inch upon this earth  
has been crying out the alarm  
We've never ever tried hard enough  
To stop us from causing harm

Is anyone thinking about this  
Is anyone thinking how we can slow down

3.  
Hey, is anyone thinking  
about all the un-thinking  
that maybe our thinking is all wrong

If we're not the answer  
We can't ignore the question  
Who is us and why are we still around?

Every inch upon this earth  
has been crying out the alarm  
We've never ever tried hard enough  
To stop us from causing harm

Oh I was thinking about this earth  
Oh about this earth  
Oh I was thinking  
Oh I was thinking  
Oh I was thinking  
All night long  
I was thinking  
I was thinking  
I was thinking  
All night long
